

OIL & GAS ENERGY SOLUTIONS

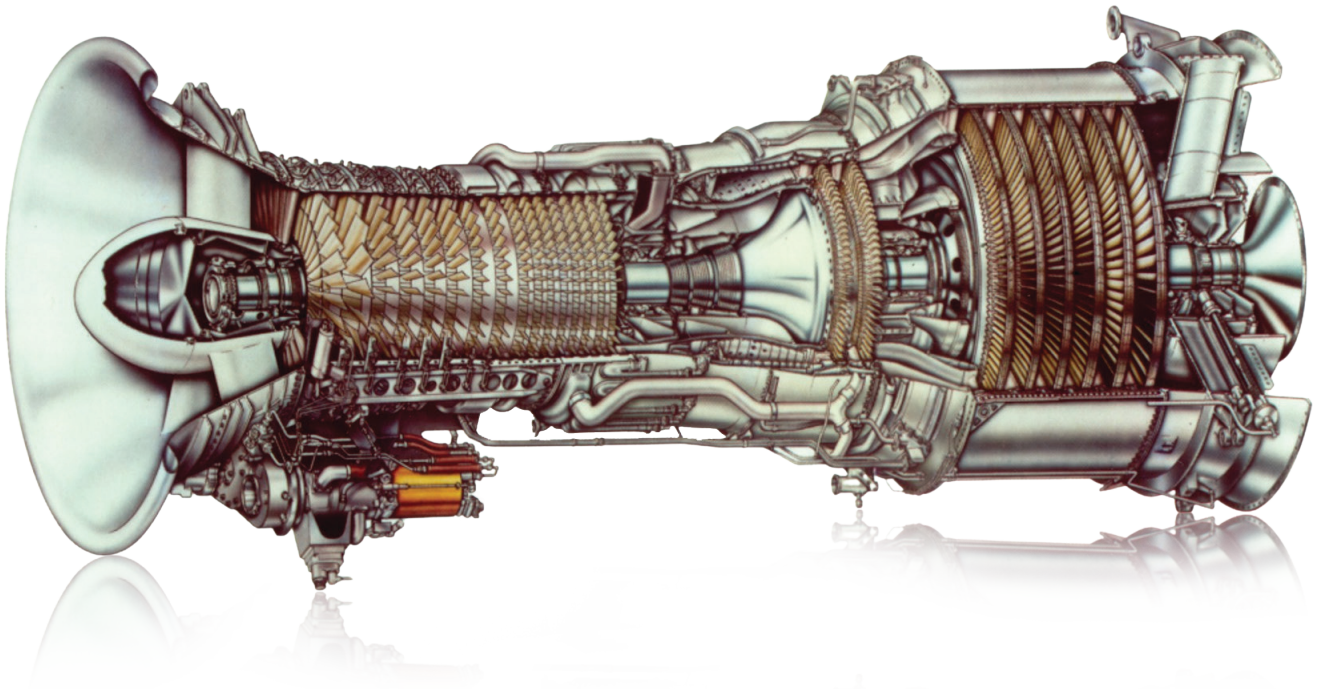

GT Performance and **NYMO** have a partnership and provide high quality services and products within gas turbines, turbocompressors and HVAC.

PRODUCTS & SERVICES:

- GAS TURBINES
- TURBOCOMPRESSORS
- HVAC

OUR SERVICES

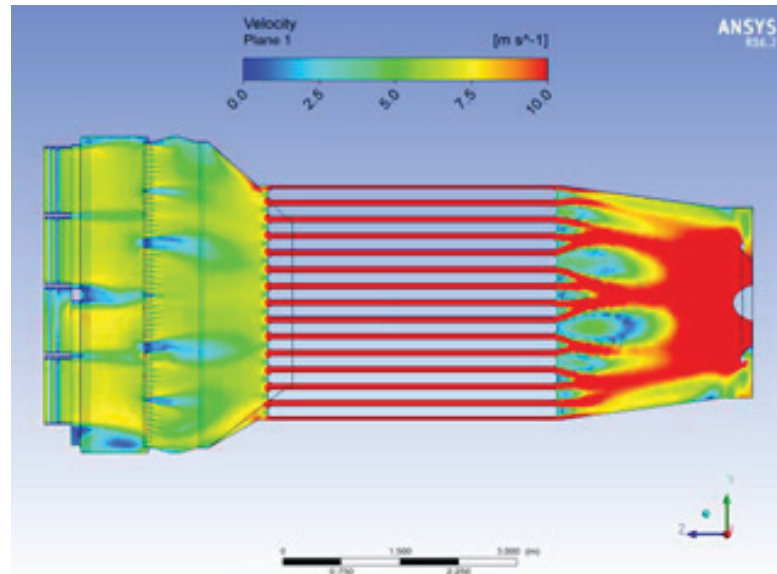

03 **STUDY
CAPABILITY**

04 **PROJECT
CAPABILITY**

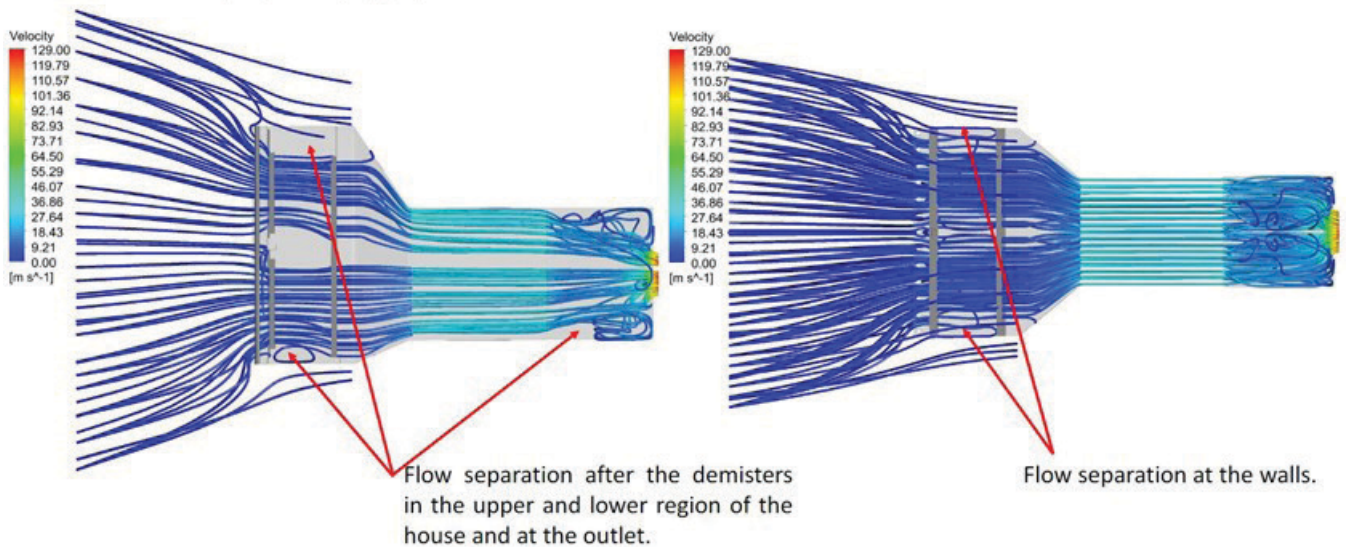

05 **OPERATION &
MAINTENANCE**

STUDY CAPABILITY

- Noise studies
- Ventilation studies
- Emission studies / power management
- CFD / FEA analysis (modules, ventilation, air intake, exhaust)
- Turbomachinery studies (retrofit /new equipment)
- Demolition studies

Streamlines in side (left) and top (right) view.

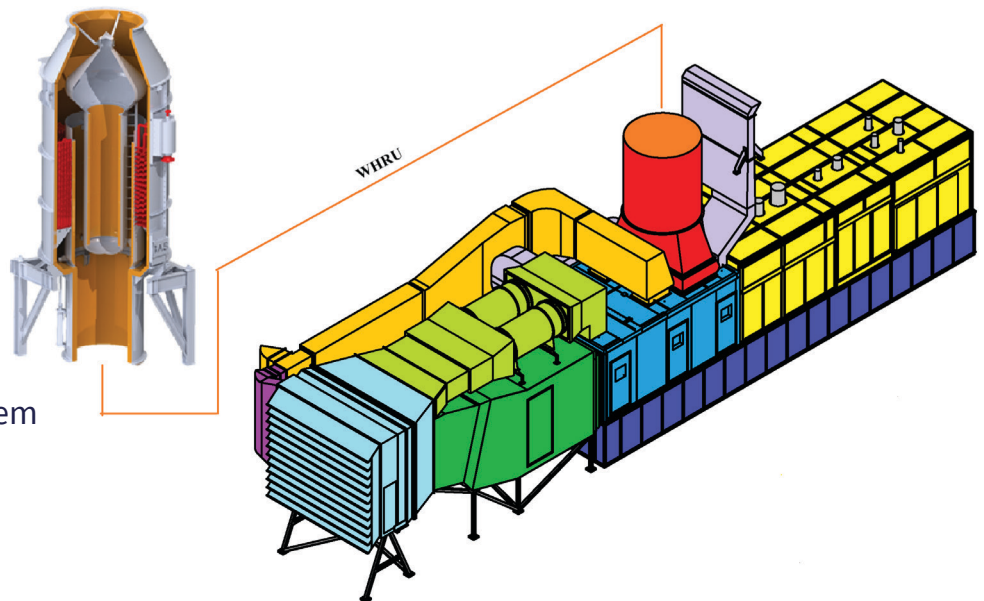

PROJECT CAPABILITY

- Gas turbine air intake (filter, silencer, ducting)
- Gas turbine ventilation (filter, fans, dampers, ducting)
- Gas turbine exhaust (collector, WHRU, bellows, ducting)
- Gas turbine anti-icing (bleed air, radiator/manifold, vent-air)
- Gas turbine water wash (offline/online wash systems)
- Turbomachinery / module enclosure & noise panels
- Diesel engine air intake & exhaust
- Hydraulic Power Units (HPU)
- Specialist consulting services
- Compressor revamp support
- Turbomachinery auxiliaries (access doors, platforms, ladders, transport equipment, lifting tools & equipment, coupling guards, thermography)

Gas Turbine Auxiliaries

- Inlet Air Filter House
- Primary Air Inlet System
- Vent. Air Inlet
- Gas Turbine Noise Hood
- Comp. Panel Noise Hood
- Skirt
- Combustion Exhaust System
- Vent. Outlet System
- Anti-Ice System
- 2nd Vent. System
- WHRU - CiBAS

OPERATION & MAINTENANCE

Field service / maintenance support:

- Gas Turbine water wash
- Air intake / filter system; inspection, cleaning, repair, filter change
- Exhaust / WHRU; inspection & repair (pilot repair methods during turbine operation)

WHY USE SERVICES FROM **GT PERFORMANCE** AND **NYMO**?

Avoid
downtime

Cost
efficiency

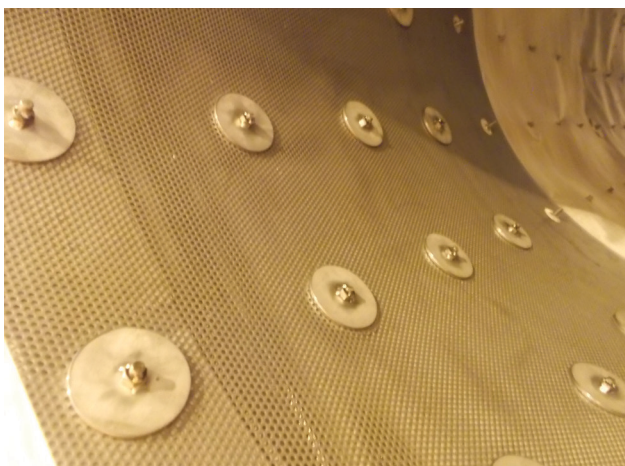

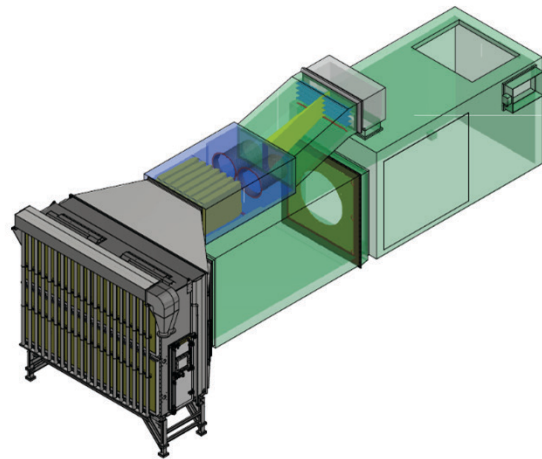

Less environmental
impact

PROJECT REFERENCE CASES

Exhaust / WHRU retrofit

Air Intake retrofit

NYMO was established in 1946. The long history makes us a pioneer within the Norwegian oil & gas and process industry. Nymo has delivered gas turbine equipment and services since the early 1980s. We have extensive experience within project management and fabricating.

GT Performance is a company specialising in gas turbine performance optimization. Our services entails lower fuel consumption and hence reduced environmental impact.

Stian Madsen, PhD
CEO, GT Performance
Gas Turbine, Air Inlet & Water Wash specialist
25 years experience operation & maintenance
E-mail: stian.madsen@gtperformance.no
Phone: +47 99 12 64 83

Arne Skjelbakken
Product Manager, NYMO
Air Inlet, Acoustic, Exhaust specialist
35 years vendor experience
